1

**Attach (3) MOD-FRM-992x2418 in a row.
Next, attach (1) MOD-FRM-992x2418 to each adjacent side of the row - (2) sides total.
Reference the diagram above.**

2

Cover Profiles

Snap in clip connectors at each designated point and then reference the measurement and install the cover profile.
*Overhead view - clip connectors/cover profiles to back side of configuration.

Graphic Install

Place graphic over the front of the frame.

Begin inserting SEG beading at each corner.

Insert the silicone beading with the fabric folded over. The silicone beading should not be exposed.

Using your fingers, push both fabric and silicone beading completely into the extrusions channel.

Continue to push in the remaining silicone beading on each side.

Check the perimeter of the frame for any excess beading that hasn't been pushed in. Graphic should be taut.
